ABSTRACT

The 1966-67 faculty salary study charts and tables based on salary data reported by 64 schools are presented. Data are reported separately for the major clinical departments, and in combined form for the basic science departments. Separate salary distributions are also provided for "strict" full-time salaries and "geographic" full-time salaries in the clinical departments. The charts plot the cumulative percentage of faculty salaries on an ascending scale. Each chart is accompanied by a table providing the frequency distribution of the salaries and the average and median salaries for faculty ranks reported. (Author/LBH)

SUBJECT: Salary Data (1966-67)

Attached are the 1966-67 Faculty Salary Study Charts and Tables based on salary data reported by 64 schools. As in past years, data is reported separately for the major Clinical Departments, and in combined form for the Basic Science Departments. Separate salary distributions are also provided for "strict" full time salaries ("S" series) and "geographic" full time salaries ("G" series) in the Clinical Departments.

The charts plot the cumulative percentage of faculty salaries on an ascending scale. Each chart is accompanied by a table providing the frequency distribution of the salaries and the average and median salaries for faculty ranks reported.
